

МАКЕДОНСКИ ПОЛИЦИСКИ СИНДИКАТ MACEDONIAN POLICE UNION

Dear colleagues,

On behalf of the Macedonian Police Union, allow us to express our concern regarding the pandemic situation of COVID-19 in Europe.

As in our country, the police officers all over Europe are being in the first lines confronting and controlling the situation, risking their lives.

We as a Union, are constantly demanding protection equipment for our members, providing them with everything they need, monitoring and reacting if needed.

In situation like this, we have to protect our members and work closely with Government and relevant Ministries and Agencies in order to overcome this situation with less consequences.

We sincerely hope that the pandemic will be under controll very soon and we wish quick recovery to all.

We wish you good health and stay safe!

In solidarity
